

## **Budnik Andrei, QA Engineer**

Minsk, Belarus

[budn1k-qa@gmail.com](mailto:budn1k-qa@gmail.com) / [Linkedin](#) / [Github](#)

Looking for commercial experience, ready to grow and develop.

### Experience

QA Engineer. Mobile apps testing (Android)

- [Wear Audio Recorder](#) (30.04.23 - present)

Testing functionality, GUI, performance, interrupts. Interaction with the development team, participation in weekly meetings and daily feedback to improve the quality of the product. Recently, an interesting letter came to the mail of the development team, and for this period (end of July) I am delving into accessibility testing (a11y).

### Achievements\Improvements:

Two releases in the PlayStore, which have been fixed: displaying functionality in different application orientations, working with the media library, synchronizing with cloud storage, working with files during updates, reinstallations, and much more.

- [Date AI](#) (14.05.23 - 15.06.23)

Participation in testing the functionality, collecting and analyzing data, compiling a checklist and creating bug reports, writing requirements.

### Skills & Other

Android Studio  
Git Bash, VSC  
Postman/SoapUI  
TestIT/Qase/Youtrack/ClickUp  
Jira/TestRail (basic)  
Charles Proxy/Fiddler
